

ORIXON

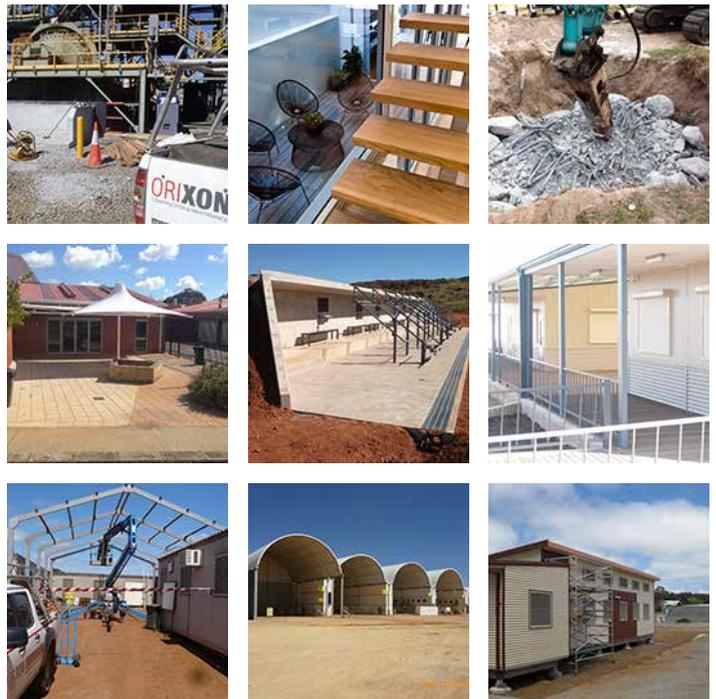

PROFESSIONAL, FLEXIBLE, RELIABLE.

COMMERCIAL CONSTRUCTION - REDEVELOPMENT - MAINTENANCE - MODULAR BUILDING

At Orixon we are experts in our field, with proven experience across the commercial construction, redevelopment, maintenance and modular building spectrum. We have earned ourselves a deserved reputation for providing a professional and flexible service.

We deliver total construction, redevelopment, and maintenance services across a range of industries including commercial, retail, hotels, sporting venues, mine sites, and defence.

We're respected for our reliability, integrity and competitive prices, renowned as leaders in organised programmer work and HSE, which is why we become long-term partners to so many clients across the mining, venues and facilities sectors in Western Australia.

Our Vision

At Orixon we have a clear vision built on our commitment to developing strong client relationships by delivering:

- A total expert construction service
- The best product and best practice
- On time and on budget

Our total service extends beyond providing a comprehensive suite of construction, modular and redevelopment services. It means we strive for complete satisfaction across every aspect of our service. We are dedicated to growing your assets, with the goal of cementing a long-term business relationship with you.

We therefore focus squarely on delivering the best product on the market with the finest workmanship, providing solutions that exceed expectations and reduce procurement costs.

Modular, Transportable Buildings

The adaptable nature of portable (or modular) buildings means they are used for a host of purposes: administration, education, dining, leisure and general facilities.

From minesites the length and breadth of WA, to temporary sites throughout Perth, we install, maintain, and refurbish transportable buildings for a range of clients with an equally-diverse array of requirements.

Ideal for Mine Sites

As a trusted partner to the mining industry, we install and maintain portable buildings for a number of mining companies.

Our modular buildings are ideal for remote and built-up areas alike, engineered to suit windy regions, with cyclonic footings and anchors.

Construction & Building Expertise

As commercial construction and building experts, we have the resources and expertise required to complete construction projects of all sizes. From community facilities, such as recreation centres and school gymnasiums, to commercial and industrial buildings - our experienced team of registered builders has a proven track record of providing building solutions of the highest quality.

Our commitment to excellence:

We pride ourselves on upholding the highest standards at every stage of the construction and building process. Our systems ensure that we maintain a best practice approach, with our Managing Director Mark Kelly personally overseeing every project's development and execution.

It's a top-down approach to maintaining industry-leading quality, procedure and safety standards that provides peace of mind for our clients.

Redevelopment & Maintenance Services

Our expertise extends from major construction projects through to commercial maintenance, redevelopment, refurbishment and fitouts of all sizes. We handle programmed and reactive maintenance, as well as redevelopment and renovation projects for clients across Western Australia.

This includes general minesite maintenance and shut downs as well as maintenance and refurbishments for community facilities, hotels & resorts, and venues.

- Commercial, retail and industrial facilities
- Sporting arenas and stadiums
- Resorts and convention centres
- Hospitals and medical facilities
- Educational, community and government buildings
- Entertainment and social venues

An Established Team with Established Systems

We have a deserved reputation for excellence, honesty and integrity at Orixon. This is built on the commitment and expertise of our people, as well as the systems we are continually developing to ensure we consistently deliver on our promises.

Our Management System covers every facet of our operations, enabling us to uphold and maintain the highest standards throughout our business.

A Note from the Managing Director

Our products are on time, on budget, and managed with health, safety and environmental practices implemented at every stage. Ongoing education and training to all members within Orixon ensures we are highly proficient and our growth is continual.

Orixon's clear communication between client, consultants and trades, I believe is the integral point of difference ensuring both Client and Orixon's satisfaction. By simplifying processes and procedures, encompassing expert and reliable services, we deliver a continued high standard of work and professionalism.

- Mark Kelly
